

## OPERATOR CONSOLE CART

### PRODUCT DESCRIPTION:

The Raynok Operator Console Cart provides a sturdy compact surface for machine control operators.

The desktop is set for sit/stand working surface for average height persons between 66" and 72" (1.6m and 1.8m). We suggest the purchaser provide their operator with a high top (or drafting) type of stool for seated comfort during long working periods.

The unit arrives in a flat pack box with hardware for assembly by the purchaser. The intuitive design provides keyed tabs for assembly with predrilled and countersunk screw locations.

The convenience shelf can be used for storing cables, remote pendants or the operator's personal items to help keep the working surface clear of clutter.

Designed and Built in Canada by our friends at Hamilton Scenic Specialty Inc. ([www.hssi.ca](http://www.hssi.ca))
